MISCELLANEOUS. SJACOB'S OIL

FOR RHEUMATISM.

As per a series of years statements confirming the efficacy of SJACOB'S OIL and its permanent cures, are given below.

From an Indian Missionary, March, 1882.

St. Alphonsus Church, Glen's Falls, N. Y.

I am kept in bed by rheumatism, crippled, unable to walk, and the single application caused the pain and gave me comfortable sleep.

—N. S. ONGE, P. P.

From Some 4 Years Later—Permanently Cured.

Glen's Falls, N. Y., Oct. 29, 1886.

Everything failed to relieve me until I tried SJACOB'S OIL. One application was sufficient to stop pain in ten minutes; a few very few applications removed the swelling. In my family, I cured my son, JOHN FIELD, I. N. S. ONGE, P. P.

From a Leading April, 1882—Cured.

The sworn statement of David Strome, Esq., New Haven, C. Ayers in substance: "I applied SJACOB'S OIL to my foot and leg, and foot. I used a bottle of SJACOB'S OIL and obtained a cure."

From Same 4 Years Later—Permanent Cure.

New Haven, Ct., Nov. 1, 1886.

I had severe rheumatism which disabled me for a year. I used SJACOB'S OIL and cured me. I consider it a good thing."

DAVID STRODE.

From One Attended like a Child—May, 1882—Cured.

Kramer, Snyder Co., Penna.

I had rheumatism which troubled me like a child. I used SJACOB'S OIL and was never ill ever since.

JOHN FIELD.

From Same 4 Years Later—Permanent Cure.

New Haven, Ct., Nov. 1, 1886.

I had severe rheumatism which disabled me for a year. I used SJACOB'S OIL and cured me. I consider it a good thing."

THE HOLDEN-PROCTOR DISPUTE.

Mr. Proctor, the astronomical writer, recently gave publicity to his opinion that the great refractor of the Lick Observatory will prove of very little practical value, not of benefit, indeed, commensurate with its great cost and the preparations now being made to equip the Observatory. To this Professor Holden, who is to have charge of the Observatory, replied at length and in a very proper tone. In exposing the error of judgment, on the part of Mr. Proctor, he incidentally stated that the latter is less an astronomer than a writer of popular works upon astronomy, and that, in fact, such experience as he has enjoyed in searching the heavens has been confined to a small instrument of very limited capacity, and that he is not therefore competent to judge us until they shall themselves be situated as we are.

JOURNALISTIC ACOLYTE.—The Argonaut has become a journalistic acolyte, and weekly swings the censor of sweet-smelling flattery before its High Priest, De Young, of the "Chronicle." If it performs this service for nothing, it shows singular want of regard for its own treasury, or a very low estimate of the value of the services it renders; while if it takes pay for the service, it plays the part of a jackal to the dog of the Observatory, will enable a larger field to be examined, and it will illuminate the telescopic object within itself to a degree never before attained by any instrument. It is not claimed that it will supersede all heavens-searchers of less size, but it will permit of the use of higher telescopic "powers," and this will give it greater effectiveness in its search. These claims are well understood by all students of astronomy, and nothing is more certain than this, that the Lick refractor will do all that its designer and maker contemplated. These facts, plainly stated, were not relied by Mr. Proctor, who, on Sunday through the columns of a San Francisco paper, made an assault upon Professor Holden, questioning his sincerity and arraigning him for partiality and unfairness as a critic. The article did not attempt to conceal the bitterness that infected and prompted it. Professor Holden yesterday replied in a calm and dignified manner; in a tone in keeping with the high trust he now has as President of the University of California, and that equally important one he is to soon assume at Mt. Hamilton. He points out that the whole secret of Mr. Proctor's rancor is founded on his (Mr. Holden's) mistake in 1874, when he wrote for the "Atlantic Monthly" a review of some of the most recent of Mr. Proctor's works. In that criticism he spoke sharply of a sensational lecture delivered by Mr. Proctor, as a book written by him, and proceeded to state his honest conviction concerning it. When his trifling error was pointed out, he promptly had the proper apology publicly made. But Mr. Proctor has not forgiven him the "slip of the pen" and it therefore burdens his latest epistle, which reflects upon the President of the University personally, and seeks to create doubts of his scientific ability. To these insinuations Professor Holden replies with vigor and incisiveness, without disturbance of his mental equilibrium or indulgence in any vituperation. He has clearly vindicated himself and exposed the narrowness of spirit that characterizes Mr. Proctor. He points out that it would be unbecoming for him to discuss his own merits as a scientific man or his personal merits as a gentleman. These leave to him, his work and the judgment of his contemporaries—in which expression he proves himself to be the gentleman, and one confident in his ability to undertake the task of overseeing the corps of astronomers at the Lick Observatory. The Royal Astronomical Society retired Mr. Proctor as Secretary, and made Professor Holden one of its fifty foreign associates. Both at the Naval Observatory, Washington, and at the Washburn Observatory, in Wisconsin, Professor Holden demonstrated his capacity. In his many works upon astronomical science, and notably in his mathematical calculations, he has established his high ability. The wisdom of choosing him to be custodian at Mount Hamilton is confirmed by the acceptance of positions under him by gentlemen distinguished in the scientific world, with whom names Mr. Proctor says Professor Holden should not have the presumption to couple his own. Thus far in this unhappy dispute, which has, however, not been without profit to California, since it has enlarged the public intelligence, Professor Holden has conducted himself admirably. The thing for him to do now is to drop Mr. Proctor and pay no more attention to his assaults. The people of California are pleased with his selection to have charge at Mount Hamilton, and nothing Mr. Proctor can say will transform that pleasure into dissatisfaction.

THE CHINESE TORTURE CASE.

The story related yesterday of the torture to which a Chinaman was subjected in San Francisco by highbinder "lodges," because he refused to yield up his wife to their nefarious purposes, or pay a royalty for safety, seems incredible. Yet it is given by authority of the police officials. The man went to China and returned with a young wife. Two weeks after arrival she was abducted from the farm or garden the couple cultivated, the husband being clubbed into insensibility and carted off to a Chinese secret prison. The wife was put in a Chinese brothel, the husband arraigned before a Chinese Court, and refusing to pay the fine levied upon him for marrying and sequestering his wife from the promiscuity of Chinatown, was subjected to torture of the most atrocious character. He was kept in a dark cell not large enough in which to

stretch his limbs; fed on foul food and half starved; pins were driven into the soles of his feet, and his finger nails were wrenched with pincers. Day by day for weeks the torture continued, and was made more and more severe, until probably just in time to save his life he was rescued by the police, and is now receiving medical treatment for his injuries. The woman has been found also and restored to her husband. There seems to be no doubt of the substantial truth of the story. That no arrests have been made is due to the fact that it is exceedingly difficult to secure witnesses, even the victim in this instance being in such a state of fears as to make him very reticent.

That such tribulations of private vengeance and blackmail can be maintained in the midst of a civilized community, in a republic where the boast is made that the people is supreme, and that the persons and property of all residents are secure from seizure and detention not justified by the warrant of the law, is a humiliating reflection. How far we have progressed in the excellence of free government when a handful of barbarians can set up in the heart of the land their unlawful tribunals and enforce their decrees by a resort to racks and thumbscrews? Here, indeed, is *imperium in imperio*, defiant class within the jurisdiction of the Government, which try, condemn and execute irrespective of the laws of the country. What a confession it is to make, to be sure, that we are wholly unable to break up their system; that our officers are powerless in its presence, and that year after year, for now more than thirty years, we have striven in vain to crush out this infamy, until it has come to be generally conceded that the Chinese are secure in their outrageous methods and systematic slavery. They hold human beings in bondage in a land that guarantees liberty to all; they buy and sell human chattels in defiance of the laws that condemn human slavery. LOCAL INTELLIGENCE.

CITY TRUSTEES.

J. J. Bauer, V. J. Gregory and A. H. Starr Elected to Office.

The City Board of Trustees met at 10 A.M. yesterday, all the members present. Bonds were approved as follows: J. T. Stafford, Clerk of the Water Works; N. A. Kidder, Harbor-master; George A. Putnam, City Collector; A. J. Wilson, Superintendent City Cemetery; J. J. Buckley.

Trustee Jones introduced a resolution relative to the office of the Clerk of the Water Works. The preamble says:

WHEREAS, The present system of keeping the accounts of the Water Works is inefficient and unreliable, and deeming it necessary to adopt a new system in which can be ascertained the amount due from each water-taker; and where such system will require the constant attention of the Clerk of the Water Works, his force being inadequate to perform the duties consequent upon such change of system.

An ordinance was passed appointing a three-deputy who shall receive \$100 per month, and the office hours of the Clerk of the water works were fixed at from 8 o'clock A.M. to 4 P.M. The ordinance appears full in another column of this paper.

SANITARY BUILDING INSPECTOR.

An ordinance was passing appointing a Building Inspector, which was introduced by the following preamble:

WHEREAS, The sanitary laws of the city of Sacramento, as now existing, do not apply to those upon any other subject of municipal regulation; and whereas, under existing circumstances, it would be difficult and inconvenient to have one person to administer all of those laws as will fully accomplish the end of such municipal legislation, it is the judgment of this council that an officer known as the Sanitary and Building Inspector, to co-operate with and assist the Director of the Health Officer, would better facilitate the enforcement of said sanitary laws.

The ordinance was full in the advertising column of this paper.

Sanitary Building Inspector, Trustee Jones nominated A. H. Starr, a member of the Republican City Central Committee, and he was elected unanimously.

Clerk of the Water Works, J. T. Stafford, noticed the Board that he had been appointed as his Deputies ex-Superintendent J. J. Bauer and V. G. Gregory, a brother of the Mayor. They will enter upon the duties of their office April 1.

Possession was granted John Bruner to build a show-window tower to extend three feet upon the sidewalk, on the southeast corner of Sixth and K streets.

Mr. C. Richard and others asked that an electric light be placed at Twenty-first and T streets. The request was referred to the Street Commissioner. They also complained of the foul condition of the Eighth street sewer.

Particulars in the neighborhood petitioned for a sidewalk on Eleventh street, from F to G. Referred to the Street Commissioner.

A bill of \$400 for constructing a sidewalk on the south side of Agricultural Park was rejected. They hold that the State should pay it.

An order was passed awarding the contract for constructing a sewer in the alley between L and L Fifth and Sixth streets, between H and Hobby.

After auditing a number of bills and ordering the same paid, the Board adjourned.

Robbed His Employer.

Adolph Jean, who owns a ranch at May-hew's Station, on the Sacramento and Placerville Railroad, called at the Sheriff's office yesterday and made complaint that his room at the ranch had been entered by a thief and robbed. His statement was that he got up when called to get ready for breakfast yesterday morning, and went into the kitchen to wash up, but did not notice his clothes were gone, out, or on account of a few minutes later, he locked it. After breakfast he and two of his employees went into the fields to work, leaving in the house Louis Joffre, whose wife was there. On Sunday, he and his wife were with the cook, but he also wanted to go to the church. They make them feel welcome. Help them fight the tempest. He returned his thanks to the choir, the marshal, the organists, the secretary, the people who were drumming for their voices to go to the church. Make them feel welcome.

Henry Leper, an old woodswarmer, and for many years quite a character in the First Ward, died at the County Hospital yesterday of old age and senile gangurene. He had been an inmate of the hospital for several months.

Police Court.

In the Police Court yesterday the cases of Mrs. J. Lohmiller and Mrs. Viskers, for disturbing the peace, were dismissed, the evidence being insufficient.In the case of John Brendenly, for disturbing the peace, previously tried and taken under advisement, the defendant was adjudged not guilty and released.Hawkins, for breaking into a house, was adjudged guilty and sentenced to six months.

The body of O. F. Richardson, the foreman of bridge builders, who was killed by a fall from a bridge over the Klamath river, on Saturday afternoon, was interred yesterday at the State Prison at Folsom, Al Yuen, who is serving 18 months for felony.

There was a heavy rainfall in McCloud and other stations at the northern end of the California and Oregon Railroad yesterday, and it is said that it may work down this way.

It was a very easy matter yesterday to pick out those who had attended the court-martial on the previous day. The sun shone brightly, and the wind was fresh and cool, clear to fair and clear.

The only arrests made yesterday were those of John Wilson, by Chief Marshal, for vagrancy; and Lizzie Belmont, by officer.

And when your mission of Love on earth is May you receive that welcome plaudit, "Come!" With stars in your crowns and heads clear to fair and clear.

When you're in this beautiful land, In God's eternal home.

Mr. C. Richard and others asked that an electric light be placed at Twenty-first and T streets. The request was referred to the Street Commissioner. They also complained of the foul condition of the Eighth street sewer.

Particulars in the neighborhood petitioned for a sidewalk on Eleventh street, from F to G. Referred to the Street Commissioner.

A bill of \$400 for constructing a sidewalk on the south side of Agricultural Park was rejected. They hold that the State should pay it.

An order was passed awarding the contract for constructing a sewer in the alley between L and L Fifth and Sixth streets, between H and Hobby.

After auditing a number of bills and ordering the same paid, the Board adjourned.

Metropolitan Theater.

This evening at the Metropolitan the charming young actress, Miss Minnie Maddern, who has been playing a very successful engagement at the Alcazar, San Francisco, will appear, well supported, in Howard P. Taylor's domestic comedy-drama, "Caprice," in which she has made the part of Mrs. Merle, opposite with Howard P. Taylor, the character player, and Colleen Shanahan, who was last night all day showing it to his friends. It is a valiantly presented, and apparently highly prized by the recipient, who considers it regal property in so far, that he has chosen it for Frank Rhoad's First Attirill match-box.

TAKEN TO ROSEVILLE.—Deputy Sheriff Lee, of Roseville, came to the city yesterday to meet the removals of George W. Hill, who had committed suicide at Hillside on the railroad, at Roseville for a long time, but took a situation elsewhere about a year ago. He was one of the company's oldest employees. He leaves a wife and four children, living at Roseville.

AMPUTATION NECESSARY.—A few weeks ago Henry Bell, a hortler employed in one of the livery stables of the city, cut his thumb accidentally, and the wound failing to heal, has been terribly inflamed. He was sent to the county hospital, where it was found that gangrene had set in, and last Friday the arm was amputated above the elbow. He was yesterday doing well, and will probably recover.

ANOTHER LIFE SAVED.—Mrs. Harriet Cummings, of Cincinnati, Ohio, writes: "Early last winter my daughter was attacked with a severe cold, which settled on her lungs. We tried every means to relieve her, but to no avail. Dr. Wm. Hall's Balsam for the Lungs, advised me to give it a trial. We got a bottle, and she began to improve, and by the use of three bottles was entirely recovered."

Good News—BARGAINS.—Not having room in my store for the large amount of millinery coming in, I will sell seven & eight uprights at prices much below their value, for a few days. John F. Cooper, corner Seventh and J streets.

Our Stores & Room Planes are acknowledged to be the best solid iron frame and patent repeating action. L. K. Hammer, sole agent, No. 820 J street.

No PIANO but the "Mathushek" has the tuning pins pushed into a solid iron frame. John F. Cooper.

LASTER spring styles in Millinery. Cheap-est at No. 820 J street, near Ninth.

HE IS GONE,
But He Leaves an Array of Blue Ribbons
in His Wake.

Monthly Enrollment—Announcement of
Vacations—Census Marshal Election.

Richard T. Booth, an American by
birth, in sentiment, in loyalty, who has
revolutionized England, Scotland and Aus-
tralia in the cause of the Gospel Temper-
ance Union during the past seven years,
closed a two weeks' engagement in this
city at the Metropolitan Theatre, with
the language of an European composer
he can say: "veni, vidi, vici." In the
beginning, he was a revolutionary
and a rebel, but now he is a patriot, and
he says: "I have met the enemy and
they are ours"—2,300 blue ribbons and 800
pledges. The meeting last evening was
more of a mass adhesion than anything
ever seen before, and the audience was
largely filling the hall. Mr. Booth was pre-
pared to say good-by, and all the pastors
in the city and Christian people generally
were on hand to congratulate him for the
great work he had accomplished and to bid
him God-speed.

Mr. Booth, in token of his appreciation
of the untiring efforts of Professor Clough,
leader of the amateur choir, who did
such excellent work, presented him with
a handsome gold-mounted ebony baton.
His remarks to the professor and to the
choir also were expressive of his
appreciation of their efforts, were well timed
and well deserved.

Wherever the fifth grade is using Third
Readers they have made their selection
for the benefit of the town. They will use
the Fourth Reader next term.

The election of a Census Marshal was
held yesterday for one month. The applicants
are M. E. Tolson, H. Denton, N. S.
Beckett and S. W. Butler.

Miss Josie Regan was granted one
month's leave of absence. Miss Kate Mor-
ford was designated to take charge of Miss
Ryan's class in the Capital Grammar
School.

Mrs. Crowell was granted sixty days
leave of absence, on account of ill health.

The night school was ordered to close
for the term ending March 31st, until the opening
of the schools in the fall.

The University Wine Samples.

Professor E. W. Hildgar, of the State
University, publishes a bulletin concerning
the wine samples recently submitted from
the laboratory of that institution to the State
Viticultural Wine Committee, in which he
says:

The report of Wine Committee of the
late Viticultural Convention, as recently
published in the city papers, calls for some
consideration of our sample.

The Grismer-Davies theatrical company
left yesterday for Modesto.

A special train of nineteen cars loaded
with oranges went East yesterday after-
noon.

Hermann Fisher has been granted a
divorce from Taboo D. Fisher, in the Superior
Court.

The Sacramento river showed a down-
ward trend yesterday, and receded to
the 20-foot mark.

The East-bound express train had a large
number of passengers that it had to be
divided into two sections last night.

The Old Board of Fire Commissioners
will meet and complete its business this
evening, and then the new Board will orga-
nize.

The Caledonia Club will hold a special
meeting this evening, to take steps toward
incorporating the organization and to trans-
act other business.
